In this research workshop, we will discuss modern robotics and AI, both in the world now and in the future currently being built in research labs.

After an example-heavy talk, we will lead a group-wide discussion on the role of robotics and AI research in improving society and people's lives.

** All are welcome—women in COEIT are highly encouraged to attend!

+ Lunch will be served.
+ Google swag bags for the first 20 students to arrive!

*Funded in part by Google exploreCSR Grant
